SKILLAB
SKILLS MATTER

Monitoring the Demand and Supply of Skills in the European Labour Market

SKILLAB aims at delivering an open-source skill demand/supply identification, analysis and prediction hub for citizens, enterprises, academia, and policy makers.

Identifying skill shortages and gaps in the labour market.

Recommending personalized reskilling, upskilling, and training plans to EU citizens.

Supporting enterprises in developing their human resources strategy.

Finding ideal candidates for emerging roles and retaining employees.

Providing systematic skill shortages reporting across countries.
